“ I had the opportunity to work with Kelly for a number of years. He was a dedicated law enforcement officer. Always focused and serious, yet calm and fair minded. He possessed a great sense of humor. RIP Steve Frank

“ The one memory that pops up when I think of Kelly is that of a cold night shift years ago. It was so slow we could hardly keep awake. We decided to meet up in Lions park to shoot the s--t. We both smoked at the time so when we parked next too each other, we had our windows down and our arms stuck out as we smoked. As we talked we both fell asleep. When we woke about an hour later we had two to three inches of snow on our arms and snow in the cars. Kelly looked at me and said "well in must be coffee time.". We both laughed, brushed off the snow and went to coffee . (you would have to have been there to appreciate the moment.)

Lori, we are sorry for your loss, and are praying for you and your family.

“ We go back to Central HS, Kelly, when I dated your brother and you were my buddy, 1968- So many years of good memories; floating the North Platte River, partying, going to your marriage ceremony when you and Lori tied the knot. Many nights of playing cards because we all were too poor to go out somewhere, doing things with the kids and so much more. And you ushered at our wedding and drank beer with my dad at Lane's birthday parties. You really got mad at me when I locked your car keys in the trunk at our visit to Estes Park and again when Deby and I went to the drive- in with you and Donny. We left a mess of pinon shells in the car. But we had fun times. I gave you my dads' and my stamps for your collection in hopes you'd find a valuable one and be rich. We exchanged books - a sack or box on the floor waiting for you to take home.

Hope your troubles are behind you and you can rest in peace. My love to Lori, Shaun and Nicole.

“ My day shift training officer! One of the three Hill officers! A team of brothers, who could scrap but you were always smart enough to find a just way out. Kelly you were well respected by me and others that served with you. You surprised me being my first and finally training officer. You were so well read in all things and you educated me a lot about life; not just about our job but the world. You were a "Stamp Collector" you did human things in a tough job.

I will always think of you. P-4 1983-1990. Dr. Death.
