“ I always felt love and comfort when visiting my grandmother. She was a shining example of self-less love and touched the lives of all of her kids and grandkids. She is already so missed but her love will not be forgotten.

“ When I think of Marjorie Pulley (Grandma), I think LOVE. She was the one person in this world I knew that truly expressed what the word LOVE really meant. Through actions, words, body language and gestures. My grandma was always there with pure love in her heart. To share, show and to create what we were truly meant here for. Marjorie Pulley taught me the true meaning of life and what my purpose is everyday. Through her kindness, generosity and love she changed so many of my family and other families lives. The world was a better place with Marjorie Pulley. I am a better man, father, brother, son and individual having been blessed with her love and care for 35 years. Thank you Grandma for having touched my life in a way I will never be able to repay. I will spend the next 35 years spreading the same joy, love and laughter you did for the last 87 beautiful years!! The English will live on in our family forever!! Cheers and my love always!! Joshua

“ Mom, I have so many wonderful memories of time we spent together. You taught me so much about life for which I will be eternally grateful. One particular memory comes to mind, it was the time we spent in Chester England. We wandered in and out of wonderful little shops, we visited amazing cathedral's and always enjoyed fresh cream pastries and cappuccinos. You showed me why you always loved returning home, the history, the architecture, the people, they are all awesome and now I will always return to Europe and walk in your footsteps and you will always be with me. We will return to the Rose Garden in Liverpool England and you will be home again. Thank you for being an incredible Mom, I was so blessed and will miss you, your voice, your hugs, your compassion and caring. We Love You Mom!

“ Marge became my mother-in-law when I married her daughter Donna over 25 years ago. We lived in Saratoga at that time and her and Chuck enjoyed coming there to visit and play golf or fish. I remember one of their visits we had a garage sell and she didn't care for garages sells because as she said you might as well just give it away because you'll only get a few pennies for you items. So we opened up the storage and the garage sell made more money than any of us could have imagined, that changed her view about that. My job took us to far parts of the United States but her favorite was the Pacific Northwest just south of Portland and she and Chuck visited several times. Donna and I believe her favorite was Victoria BC where we had high tea everyday with her, she remarked it reminded her of her home in England. We miss you Marjorie and you will live in our hearts and minds forever.
